# NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3 57% and 4 16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income.

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000/-.

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3 1/2% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay Calcutta, Delhi & Madras, and Branches of The Imperial Bank of India in other places transacting treasury business.

Full particulars obtainable from District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

## REMARKS

The figures of births and deaths shown in this statement for week ending the 14th June, 1952, relate to 210 towns with an estimated population of 29,337 thousands. The total number of towns is 281 and their population is 34,545 thousands. Thus 75% of the total number of towns representing 85% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 15,268 and 8,593 representing birth and death rates of 27.1 and 15.2 per thousand of population respectively.

(A) States (Parts A & C).—The data here relate to 184 towns with an estimated population of 26,076 thousands. The total number of towns is 235 and their population is 29,351 thousands. Thus 78% of the total number of towns representing 89% of the total population is covered.

The numbers of births and deaths recorded in these towns were 13,489 and 7,892 representing birth and death rates of 26.9 and 15.7 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 26 towns with an estimated population of 3,261 thousands. The total number of towns is 46 and their population is 5,194 thousands. Thus 57% of total number of towns representing 63% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,779 and 701 representing birth and death rates of 28.4 and 11.2 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
